Experience

Sep. 2021 – Dec. 2021. **CWRU CSDS 132 Intro to OOP TA**

CSDS 132 is taught by Professor Harold Connamacher and centers around labs and projects in Java to teach students object oriented programming. As a TA we hold 2 sections of labs every week, grade projects, and have weekly office hours.

Jan. 2021 – May. 2021. **Mobile Development Intern**

GXC, LLC

Designed, implemented, and tested features for the unfinished Flutter based GXC mobile app under the mentorship of senior developers in the Company.

Sep. 2019 – Apr. 2020. **Undergraduate Research Assistant**

Advanced Platform Technology Center Louis Stokes VA Medical Center

Conducted the initial research for new experimental protocols submitted to the IRB. Analyzing data taken during experimental trials with MATLAB and Excel. My entrance into the world of CS and why I switched majors.

Education

2022. **Case Western Reserve University** *Cleveland – Ohio*

B.A. in Computer Sciences GPA - 3.82

2020-2021. **Yonsei University** *Seoul – S. Korea*

Exchange Student Academic Year

2015. **Stuyvesant HS** *NY – NY*

GPA - 93%

Projects

Spider := A svelte based decentralized, encrypted messenger made with Cameron Farmer for Computer Security. Spider.

Weight Planner := two separate projects: a flutter app and a flask python web app. Tracks workouts with hive for flutter and a csv for flask. WeightPlanner App , WeightPlanner Flask

Digital Butler := A project from SW engineering course at Yonsei. Translates text from pictures, saves photos and locations, Designed to help remember restaurants and translate menus. DigitalButler
